Welcome

I'm Craig, the Singing Sensei. Whether you're in Honolulu or online anywhere in the world, these AI vocal prompts are designed to spark fast improvement. You can copy and paste them into ChatGPT (or another AI assistant) and get custom warm-ups, drills, and creative practice sessions instantly. They'll help you discover your TrueVoice™—stronger, freer, and more confident.

Want to go further? Book a trial lesson at singingsensei.com and experience personalized coaching.

20 AI Vocal Prompts

1. Create a 3-minute vocal warm-up focused on reducing throat tension for a singer.
2. Write a 5-minute routine to expand my mixed voice range from chest into head smoothly.
3. Give me karaoke practice drills for confidence on high notes.
4. Generate tongue twisters that improve diction and clarity for singers.
5. Design a breathing exercise to build stamina for long vocal phrases.
6. Make a 10-minute daily vocal workout for beginners.
7. Suggest exercises to strengthen falsetto without strain.
8. Give me warm-ups that prepare my voice for belting safely.
9. Create resonance drills to improve vocal tone richness.
10. Write a quick vocal reset after talking all day at work.
11. Make practice prompts for better pitch accuracy.
12. Give me relaxation exercises to reduce performance anxiety.
13. Design warm-ups that prepare me for jazz or pop singing styles.
14. Suggest exercises to improve microphone technique for live performance.
15. Generate practice ideas to transition smoothly between vocal registers.
16. Write a cool-down routine to protect my voice after a long rehearsal.
17. Create warm-ups for singing in the morning when the voice feels stiff.
18. Suggest articulation drills for clearer lyrics in fast songs.
19. Design practice prompts for extending my singing range higher.
20. Write recovery tips for a singer after mild vocal fatigue.
